MESSAGE FROM PRESIDENT OF MALAYSIAN ORTHOPAEDIC ASSOCIATION

Welcome to Penang and to the 52nd Malaysian Orthopaedic Association (MOA) Annual Scientific Meeting 2023.

After battling the pandemic for almost 3 years, we are finally here to be able to have our meetings face to face without restrictions. It is good to be able to meet everyone, and in this case I really look forward to meeting our friends from all over the country, and in fact from all over the world. At the time this message is written, there are already over 2,000 registered delegates from over 17 countries. I know that this year's event will have a great impact for those in attendance, and on behalf of MOA we welcome and are extremely happy to have you here with us. As with our previous meetings, MOA provides a host of opportunities that would allow us to expand our knowledge and enjoy the company of friends and colleagues. The hiatus in our annual meetings for the past 2 years have left us with a gap that can never be filled.

During that time, we have lost many friends and family, and in this meeting it is our hope that we would make time to meet our friends and to remember those that has passed on. Therefore, at MOA we felt that there is no better place to have this year's meeting in the beautiful island of Penang, a historical heritage island of modern and old, with beautiful beaches and with many attractions to offer; not forgetting its diverse array of culinary delights. Penang being a place voted as one of the most sustainable, liveable and affordable places in the world was selected to provide a friendly, relaxed and stimulating environment that would help make the participants of this year's ASM gain as much as possible from this meeting.

It is our mission that, in addition to helping make a difference in your practice and the care of patients through the many Instructional Course Lectures, Symposiums, and Education Day offerings; MOA ASM will provide more and it is not just in academia and research. It is about the opportunity to embrace friendship and collegiality. We are also in the business that encourages and promote good and ethical practices. This year, MOA's theme being "enhancing recovery" provides a deeper meaning than just prescribing surgery and medicine to patients. It is about having to heal deep wounds and deep seated diseases such as unethical practices and poor decisions & actions. In the past 2 years, MOA has been ramping up our effort to be more involved in improving training and education to junior doctors and trainees, with many sessions of online training done to date. This is in addition to our increasing support to our junior members in sponsoring them in their speciality courses, travel subsidies and traveling fellowships. Furthermore, MOA has pledged to be committed toward achieving higher Sustainability Development Goals (SDGs). In our effort to do this, MOA has embarked on several initiatives to reduce carbon foot print, promoting the 3R principle and partnering with industries that promote sustainability.

As orthopaedic surgeons, we take on challenging cases, complex fractures, and tough revisions. We do so with determination and resolve because we know the outcome depends on our efforts. The ongoing challenges we face nationally (or even globally) requires this same dedication. Identifying effective remedies to both confront and eliminate deep seated issues requires leadership from all of us. MOA wholeheartedly embraces this concept and will uphold these values as much as possible, so please do attend and join us to show your commitment to uphold these values.

Lastly, I wish to mention here that it has been my great honour to serve as your president, and I appreciate the tremendous effort done by the organising committee in making this event a success. I also wish to thank for the support I have received namely from the council, our Society members, industry partners, our conference organising partners and many others, of whom, without them this ASM would not have been a great success. I do hope in this meeting we will further enhance orthopaedics globally and, in the process have a fun time together.

Please enjoy the many opportunities available in this year's conference, and thank you again for joining us in Penang.

Prof Dr Tunku Kamarul Zaman Tunku Zainol Abidin
President
Malaysian Orthopaedic Association 2022 – 2023

MESSAGE FROM ORGANISING CHAIRMAN OF THE 52ND MOA ASM 2023

Dear colleagues and friends,

“Selamat Datang ke Pulau Pinang”

On behalf of the Malaysian Orthopaedic Association (MOA) and the organising committee, I welcome you to the 52nd MOA Annual Scientific Meeting & Annual General Meeting 2023. We also welcome delegates from Asia Pacific Orthopaedic Research Society (APORS), ASEAN Orthopaedic Association (AOA) and all international guests.

Embracing the theme “Enhancing Recovery In Orthopaedic Surgery” our Scientific Chair, Dr Shams Amir and the Scientific Committee have outlined an exhilarating programme that highlight the multidisciplinary and evidence-based practices that promotes fast recovery and optimum outcome of treatment in the field of orthopaedic surgery. Attendees can look forward to Instructional Course Lecture (ICL) format and case-based discussions during the symposiums.

This year we have a record number of 739 abstracts submitted for the oral and poster presentations. The best researches will be presented at the Mahmood Merican Award and Best Basic Science Research Award session. As for the free papers presentation, we want to stimulate a lively scientific discussions by introducing the “lightning sessions” format to give an opportunity to the submitters to present their work in a dedicated speaker’s corners manner on the 17th June 2023, third day of the meeting. So please watch out for this event.

We are also introducing new elements to MOA conference this year. We welcome our new Orthopaedic Surgeons to MOA during the opening ceremony together with their family members. We will also have the first MOA Presidents Cup Quiz to encourage our junior colleagues to form their own teams and compete among institutions for the trophy together with a hefty cash prizes awaits the winning team! The MOA Presidents Quiz Cup will see the start of what we hope will be a new tradition during the MOA ASM.

Together with our conference organiser, the layout of the exhibition area has been thoughtfully formulated to allow our industry partners to showcase their newest technologies, pharmacological products and rehabilitation equipment. We will be introducing “Orthoquest”, a program that entice attendees to explore the booths and engage with our industry partners. This is another opportunity to win great prizes.

This year, MOA will be focusing on moving towards sustainability with the introduction of new efforts to make our conferences more Environment, Social and Governance (ESG) aligned. 52nd MOA ASM has been consciously making efforts to reduce waste, going digital, and upcycling. In collaboration with KLOTH Care, the 52nd MOA ASM will also feature lanyards made of recycled water bottles and Denim Tote bags made of upcycled Denim materials specially made by the B40 women community. Our further efforts also highlight green travelling in collaboration with KTMB Malaysia which give the travellers 25% discount of their train ticket price.

Since we are in the heritage city of Penang, together with our local organising chairman, Dr Zairul Anuar and Penang Convention and Exhibition Bureau (PCEB), we hope to bring a bit of Penang into our exhibition area. We have artisan exhibitors from Penang to exhibit and offer their local products. The Live to Move cycling events has excursed throughout the Penang Island to raise funds for the Arthritis Society of Malaysia.

On behalf of the organising committee and MOA council, we hope you will treasure the moment during the meeting and enjoy the vibrant UNESCO World Heritage of Penang Island.

Osteoporosis & Fragility Fractures: The Importance of Multidisciplinary Management to Improve Patient Outcomes

by
Prof Dr Ellewellyn G. Pasion, FACS, FPOA, FPCS

ABSTRACT

The global burden of Fragility Fractures will be discussed. The projection that by the year 2050, the incidence of hip fractures globally will increase significantly from the present-day figures. The overall cost of hospitalization and surgery will likewise increase considerably.

The data in the Asia Pacific region will be shown and compared with the rest of the world. The Osteoporotic Fracture management gap in the Philippines will also be briefly discussed.

Orthogeriatrics and the importance of multidisciplinary management of Fragility Fractures will be fully discussed, citing the benefits in the overall outcome in terms of reducing mortality rates, complications, and improving the quality of life and activities of daily living.

Towards the end of the lecture, some tips and tricks to avoid complications in the surgery of Fragility hip fractures will be presented. A summary and conclusion will end the lecture.

Time	Session	Topic	Speaker
8.00 am - 8.10 am	Trauma ICL: Lower Limb Moderator: Dr Mohammed Izani Ibrahim	Evaluation, Soft Tissue Management And Indications For Fixation	Dr Nur Sabrina Abdul Ghani
8.10 am - 8.20 am		Approach To Fixation	Dr Khairul Faizi Mohammad
8.20 am - 8.30 am		Associated Ligamentous Injury Management	Dr Azammuddin Alias
8.30 am - 8.45 am		Q&A	All Speakers Above
8.45 am - 11.30 am	Opening Ceremony Hall for New Orthopaedic Surgeon Family Members		
11.30 am - 11.40 am	Symposium 2: Child Health Moderator: Dr Mohd Firdaus Hafni Ahmad Dr Norazian Kamisan	Approach To Rotational Deformity - Assessment In In-Toeing And Out-Toeing Gait And When To Refer	Prof Dr Mohd Anuar Ramdhan Ibrahim
11.40 am - 11.50 am		Assessment To Flatfoot - What To Look For In Flatfoot And When To Intervene	Dr Luvan Markandan
11.50 am - 12.00 pm		Management Of Paediatric Trigger Digits	Dr Amaleswaran Anbarasan
12.00 pm - 12.10 pm		Approach To Proximal Humerus "Bone Cyst"	Dr Prashant Narhari
12.10 pm - 12.30 pm		Q&A	All Speakers Above
12.30 pm - 12.45 pm	Break		
12.45 pm - 12.50 pm	Lunch Symposium  Moderator: Dato' Dr Lim Boon Ping Bento Lunch Box	Opening Remarks	Dato' Dr Lim Boon Ping
12.50 pm - 1.20 pm		Management Of Patients With Very High Risk Of Fragility Fracture What Can We Do As Orthopaedic Surgeons?	Dato' Dr Lee Joon Kiong
1.20 pm - 1.30 pm		Q&A	All Speakers Above
1.30 pm - 2.00 pm	Break		
2.00 pm - 2.10 pm	Symposium 4: Bone Health Moderator: Prof Datuk Dr Sabarul Afian Mokhtar	Fragility Fracture and Orthopaedic Surgeons	Dr Joanne Ngim Hui-Ling
2.10 pm - 2.20 pm		Fracture Liaison Service - Our Experience	Dr Juzaily Fekry Leong
2.20 pm - 2.30 pm		Osteoporosis CPG 2022 - What's New	Dato' Dr Lim Boon Ping
2.30 pm - 2.40 pm		Bone Health Optimisation	Dato' Dr Lee Joon Kiong
2.40 pm - 3.00 pm		Q&A	All Speakers Above
3.00 pm - 3.15 pm	Break		
3.15 pm - 4.15 pm	Sponsored Symposium 	Opening Remarks	Dato' Dr Lee Joon Kiong
		Latest Consensus: Recommendations For Treatment With Topical NSAID	Prof Dr Azlina Amir Abbas
4.15 pm - 4.30 pm	Break		
4.30 pm - 4.40 pm	Symposium 6: Next Generation Orthopaedics Moderator: Prof Dr Amran Ahmed Shokri	3D Modeling in Orthopaedics	Prof Dr Munjed Al Muderis
4.40 pm - 4.50 pm		3D Printing in Management of Fractures	Dr Nor Azman Mat Zin
4.50 pm - 5.00 pm		Effectiveness Of Osseointegration In Enhancing Amputation Rehab	Prof Dr Munjed Al Muderis
5.00 pm - 5.10 pm		Robotics In Arthroplasty	Dr Suhail Suresh Abdullah
5.10 pm - 5.30 pm		Q&A	All Speakers Above
	End of Day 1

8.00 am - 8.20 am	Bone Repair Moderator: Dr. Chong Pan Pan Prof Dr Tunku Kamarul Zaman Tunku Zainol Abidin	Role Of Mesenchymal Stem Cells, Secretome, Exosome, Or BMP-2 In Bone Repair, Restore, Regenerate And Replace	Prof Dr Ismail Hadisoebroto Dologo
8.20 am - 8.40 am		Limb Length Discrepancy Due To Growth Plate Injury: Can MSC Exosomes Help In Repair?	Asst Prof Dr Francis Wong Keng Lin
8.40 am - 11.30 am	Break		
11.30 am - 11.45 am	Tendon and Upper Limb Research Moderator: Assoc Prof Dr Akshay Srivastava Dr Sureshan Sivananthan	Less Invasive Surgery For Chronic Achilles Tendon Ruptures	Prof Dr Nicola Maffulli
11.45 am - 12.00 pm		Mesenchymal Stem Cells In Tendon Regeneration	Dr Tan Sik Loo
12.00 pm - 12.15 pm		The Role Of Orthobiologics In Upper Limb Surgery	Dr Tulyapruet Tawonsawatruk
12.15 pm - 12.30 pm		Ultrasound Guided Tenotomy	Assoc Prof Dr Joyce Koh
12.30 pm - 12.50 pm		Q&A	All Speakers Above
12.50 pm - 2.00 pm	Role & Evidence For Oral Anti Inflammatory Supplements In Orthopaedics Assoc Prof Dr Joyce Koh		
2.00 pm - 2.20 pm	Basic Spine Moderator: Dr Tulyapruet Tawonsawatruk Assoc Prof Dr Mohd Heikal Mohd Yunus	Regeneration Strategies For Low Back Pain Treatment	Assoc Prof Dr Gianluca Vadalà
2.20 pm - 2.40 pm		Regeneration Of Intervertebral Disc In Modulating Discogenic Pain	Dr Isma Liza Mohd Isa
2.40 pm - 3.00 pm		Collagen And Hyaluronic Acid Hydrogel Based Treatment Solutions For Intervertebral Disc Repair And Regeneration	Assoc Prof Dr Akshay Srivastava
3.00 pm - 3.20 pm		Evolution Of Motor Restoration Via Epidural Stimulation In Spinal Cord Injury	Dr Jiang Lei
3.20 pm - 3.40 pm	Tea Break Sharing: Collaboration In Research		Prof Dr Howe Tet Sen
3.40 pm - 3.55 pm	Cartilage Regeneration Moderator: Dr Tan Sik Loo Prof Dr Tunku Kamarul Zaman Tunku Zainol Abidin	Orthobiologics - Are They Here To Stay ?	Prof Dr Nicola Maffulli
3.55 pm - 4.10 pm		Joint Preservation Surgery For Knees: A Bridge Too Far?	Prof Dr James Hui Hoi Po
4.10 pm - 4.25 pm		State Of The Art In 2023 - What Do We Do To Regenerate Damaged Cartilage	Assoc Prof Dr Chia Shi Lu
4.25 pm - 4.40 pm		Perivascular Stem Cell, Mesenchymal Stem Cell And Platelet-Derived Extracellular Vesicle Therapies For Articular Cartilage Regeneration: From Basic Research To Clinical Outcome	Dr Chong Pan Pan
4.40 pm - 4.55 pm		Human Osteoarthritis Articular Chondrocytes In Three-Dimensional Collagen Type I Hydrogel And Natural Product With Anti-Osteoarthritis Property	Assoc Prof Dr Mohd Heikal Mohd Yunus
4.55 pm - 5.10 pm		Orthopaedic Research In The Private Setting	Dr Sureshan Sivananthan
5.10 pm - 5.25 pm		Evolution Of A National Cartilage Society-ICS: It's Struggle And Achievements	Prof Dr Rajat Jangir
